THREE TERRITORIES. THREE HOUSES. YOUR VERY OWN JOURNEY.

War is coming to the continent of Fódlan. Here, order is maintained by the Church of Seiros, which hosts the prestigious Officer's Academy within its headquarters. You are invited to teach one of its three mighty houses, each comprised of students brimming with personality and represented by a royal from one of three territories.

As a professor, you are responsible for teaching your students and improving their skills in their academic lives and in battle. These may be school assignments, but the stakes are very real. Your students' lives depend on your leadership. It's up to you to guide each of them, so that they may wield a variety of weapons, master the study of magic, and acquire special skills such as horsemanship. Which house, and which path, will you choose?

- A turn-based, tactical RPG that puts new twists on strategic battling.
- The Officer's Academy is home to three houses: The Black Eagles, The Blue Lions, and The Golden Deer... Which house will you choose?
- For the first time in series history, assign battalions of troops to support individual units in battle.
- Freely roam Garreg Mach Monastery and interact with students in a variety of ways—over lunch, even—to bond and gather intel.
- As a female or male professor, you'll meet House Leaders and future rulers Edelgard, Dimitri, and Claude.
